

Adapter insert | AT-PP

Insert for PushPull connectors | IP66

Article:	AT-PP
Brand:	icotek
Protection class:	IP54, IP55, IP64, IP65
Material:	Elastomer
Material Base frame:	Polyamide
Flammability:	UL94-V0, self-extinguishing
Temperature:	40°C to 90°C
Characteristics:	Silicone-free, Halogen-free
Type:	IMAS-CONNECT™

Description

Adapter grommet / AT-PP IMAS-CONNECT™ is based on a large KT bushing. This bushing has a polyamide body. With the screw-on housings, all modules in the "compact" category that have a PushPull system can be inserted into the bushing. With the divisible adapter insert / AT-PP, you can feed pre-terminated cables through. This way, you can reduce the drilling and labor costs.

- PushPull modules and the housings are not included in the shipment.

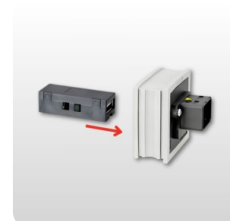

AT-PP is compatible with:

Cable glands for cables with connectors

Cable entry systems for cables with connectors

Advantages:

- By utilising the AT-PP grommet, connectors can be integrated directly into the cable entry frame
- Separate cut-outs for connectors are no longer necessary
- Space-saving design
- Grommet is suitable for PushPull housings
- Cost-saving assembly
