| Brand: | Rubsamen & Herr |
| Protection class: | IP54 |
| Color: | RAL 7035 |

Description

The Roof Filter Fan / DVL is the perfect solution for roof ventilation with its cost-effective options and versatile features. With a roof hood and a labyrinthine air duct, it effectively prevents the ingress of dust and water, making it ideal for various environments.

This filter fan is designed to offer optimal airflow in the enclosure, ensuring even and efficient ventilation. In addition, the tool-free assembly and filter replacement make it easy to maintain and keep the filter fan in top condition. The filter fan Roof has the same mounting openings as The LV filter fan, making it a convenient option for upgrades or replacement of existing systems.

- Explore the benefits of DVL and experience efficient and reliable roof ventilation.
