

## Cable duct Unex | 88 HF

Halogen-free slotted cable duct | U43X | RAL7035

Article:	88 HF
Brand:	Unex
Material:	U43X base raw material PC
Temperature:	-45°C to 90°C
Length:	2000mm
Color:	RAL7035
Approvals:	CE, UL, CSA, N, NF, VDE, Bureau Veritas, Germanisher Loyd, FSR (Russia)

### Description

Cable duct Unex 88 / HF – Halogen-free cable duct with the highest performance and finish.

Cable duct Slotted UNEX / HF is manufactured in the halogen-free mixture oU43 X Base raw material: 100% recycled halogen free thermoplastic component. The duct is a first-class choice for those who place high demands on safety, finish and function. With its clean design and without uneven edges, it provides both a professional aesthetic and gentle treatment of the cables during installation.

Advantages of UNEX HF cable duct:

- Halogen-free and self-extinguishing – Meets modern environmental and safety requirements
- Flexible and durable slots – Bends without breaking, for easy and safe cable routing
- Clean cut from sidewall to bottom – Provides optimal space for branching and does not damage the cable insulation
- Rigid cable holders – Prevents deformation and enables clear circuit division
- 4 mm between slots – Provides more exit points for cables towards connection points
- Unique finish and easy assembly – Smooth surfaces and user-friendly design for quick installation
- Broad certification base – The product is tested and approved according to the industry's strictest standards

Cable duct Slotted UNEX / HF is the obvious choice for electrical installers, panel builders and automation solutions that require both reliable function and a professional finish.

Order UNEX HF cable ducts from C-Pro today – for a safe, smooth and certified installation!
