

Accessories Appliance Cabinet | E NUX

Accessories for enclosure ETA E NUX series for flexible installation, assembly, and customization in industrial and automation environments.

Article:	Accessories Device cabinets ENUX
Brand:	E.t.a
Fits	Cabinet E NUX

Description

Accessories Appliance Cabinet | E NUX are developed to complement and optimize enclosure solutions in automation, industry, and electrical installations. The product range includes components for mounting, internal installation, cable management, and mechanical adaptation of control cabinets.

The products are adapted for the E NUX series and ensure high compatibility, easy installation, and professional integration into both new and existing facilities. The accessories are used to create flexible and reliable solutions with high technical dependability.

The NUX accessories are suitable for OEM companies, system integrators, and industrial companies that need robust and scalable enclosure solutions for control systems and automation.

Benefits of Accessories for ETA E NUX

- Customized for ETA E NUX appliance cabinets
- Easy and secure installation
- High compatibility and fit
- Suitable for industrial environments
- Flexible solutions for automation and power distribution
