Cable ties with metal tongue

Article:	MET
Brand:	SapiSelco
Material:	Polyamide 66 / Stainless steel
Color:	Black
Certificate:	CE, UL, CSA, IMQ, BUREU VERITAS, VDE

Description

Cable ties with metal tongue in stainless steel for advanced applications. The metal tongue securely bites into the cable tie in any position. With stainless steel metal tongue for the most advanced applications. The metal tongue bites securely into the body of the cable tie and in any position, according to a continuous range of fixation diameters.

- The cable tie is smooth and therefore flexible and resistant to low temperatures and in conditions with zero humidity.
- Cold resistance and opening tests confirm values that are better than normal cable ties.
