

## Double thermostat cooling & heating | ZR011

For Filter Fans & PTC Heaters 0°C - 60°C

Article:	ZR011
Brand:	Rubsamen & Herr
Contact:	NO + NC
Temperature range:	0° C - 60° C
Switching differences:	8K
Sensor material:	Bimetal
Coupling capacity:	AC: 250V / 10 (2) A, DC: max. 30W

### Description

Double thermostat cooling & heating / ZR011 is a double-acting thermostat for both heating and cooling.

Suitable for filter fans and PTC heaters.

- Temperature controller with bimetallic or capillary sensor
- Electronic temperature controller
- Protection of electronics against heat and cold
- Switch contact for filter fans and heating elements
- Low noise level
- Energy saving
