

## Plugs | Polyamide

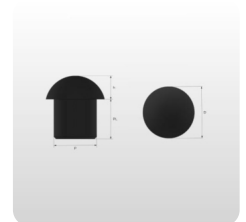

Sealing plug for cable gland | For M12 - M63 | RAL7035 | RAL7001 | RAL9005

Article:	Plugs   Polyamide
Brand:	Bimed
Material:	Polyamide PA6
Flammability:	V2 according to UL94
Operating temperature:	Permanent -20°C to +100°C
Color:	RAL7035   RAL7001   RAL9005

### Description

Discover Polyamide Plugs, the perfect solution to ensure optimal sealing in your industrial cable glands. Polyamide / CBDP Plugs are the ideal choice for industrial environments where safety and reliability are paramount. This versatile product offers an effective sealing solution that protects against moisture, dust and other contaminants, while maintaining the integrity of your electrical systems. Whether you work in manufacturing, process automation or other heavy industry, Polyamide Plugs provide the reliability and performance you need to keep your systems in top condition.

- Designed to seal cable glands when no cable is in use
- Suitable for a wide range of industrial standard applications
- Made from high quality polyamide for durability and performance
- Easy to install and maintain
