

## Chiller | WRA ErP

Air-cooled liquid chillers | ErP2021, scroll compressor | R410A, R134A | 5 – 47.5 kW

Article:	WRA ErP
Brand:	Cosmotec
Type:	Air-cooled
Effect:	5 - 47.5 kW

### Description

Chiller / WRA ErP is the result of a design that has focused on reliability, energy efficiency, the extension of operating limits, and extreme configurability.

Thanks to dedicated technological solutions such as the enlarged heat exchangers, the standard electronic expansion valve, and the new high-efficiency fans, each configuration of the WRA ErP is characterized by high thermodynamic performance, which exceeds the most stringent minimum energy efficiency requirements imposed by the Ecodesign directive starting from 2021.

#### High energy efficiency

Chiller / WRA ErP works with high thermal load continuously throughout the year, thus ensuring the highest performance in any operating condition. All WRA liquid coolers comply with the limits required by the ErP2021 regulation – SEPR HT (EU) 2016/2281 – SEPR MT (EU)2015/1095, becoming the best solution for all process applications.
