Patented marking systems | for slotted cable duct

Article:	Slöman
Brand:	
Material:	PVC / Halogen-free
Color:	RAL7030

Description

Marking System / Slöman – Patented and Simple Marking for Cable Ducts and Components

Slöman is our self-developed and patented marking system for clear and durable marking of cable ducts and electrical components. With easy installation and high user-friendliness, Slöman is a popular choice among installers and electricians across the industry.

Advantages of the Slöman Marking System:

- Quick and easy installation – Save time when marking cable ducts, electrical cabinets, and components.
- Compatible with several brands – The original Slöman fits perfectly with our cable ducts from IBOCO, and our halogen-free Slöman is adapted for UNEX and Licatec.
- Halogen-free option – Choose an environmentally friendly and safe design where required.
- Patented quality – Developed by us to meet high demands on clarity, durability, and compatibility.

With the Slöman marking system, you get a professional, flexible, and efficient solution for marking – whether it concerns industry, electrical installation, or automation.

Do you have questions about our marking systems or cable ducts? Feel free to contact us – we will help you find the right solution.
