

Speed Controller | TLR 400

Speed controller | display | -20°C ... +60°C

Article:	TLR 400
Brand:	Rubsamen & Herr
Voltage:	230V 50 Hz
Max. Effect of fans:	400W
Speed control:	Through phase control
Temperature range:	-20 ° C ... +60 ° C
Display:	4-digit LED 7-segments
Temperature sensor:	Digital, resolution 0.5°C
Fault relay:	Normally open contact, potential-free
Fuse:	3, 15 A fast

Description

Speed Controller / TLR 400 is a speed regulator with display and:

- Microcontrollers with display for temperature and error message
- Suitable for single-phase AC motors up to 400W
- Continuous thermal speed control for fans and heat exchangers
- Noise reduction • Energy saving
- Easy programming of setpoints for temperature, minimum and maximum speed
- Alarm signal for high temperature, damage to sensor or stationary fan
- Delivery content: speed controller with housing and external digital sensor
