

Lighting LED | Tube

Robust LED lighting | 24V DC | 1000 lm, 1700 lm & 3400 lm | IP67

Article:	Tube
Brand:	icotek
Luminous flux:	1000 lumens 1700 lumens 3400 lumens
IP Rating:	IP67, Protection class III (Protective extra low voltage)
Temperature:	-20°C to 50°C
Tube material:	Polycarbonate
Material Tube:	Borosilicate glass
Material End pieces:	Stainless steel
Mounting options:	Screw assembly & Snap-in
Voltage:	24V DC

Description

Lighting LED / Tube provides efficient lighting for machines and equipment, with M12 connectors for standardized connection. The fixture is easy to mount, rotates and offers a circuit-independent lifespan of 50,000 operating hours. Depending on the application, you can choose different materials for the tubes: Lighting LED / Tube is available in chemical-resistant borosilicate glass and in impact-resistant polycarbonate. Varying temperatures, oil, water or various chemicals therefore affect neither the brightness nor the lifespan.

Advantages:

- Chemical-resistant borosilicate glass or impact-resistant polycarbonate tube
- Protection class IP67
- Completely maintenance-free product
- High energy efficiency thanks to High Power LED
- Compact round design \varnothing 28 mm, suitable for tight installation situations
- Simple retrofitting in existing machines
- With rotating LED tube
- End pieces in stainless steel
- Cable connection via M12 connector

Lighting LED / Tube provides efficient lighting for machines and equipment, with M12 connectors for standardized connection.
