Base material and lock	Polycarbonate
Sealing material:	Polyurethane
Material screws:	Stainless steel (V2A)
Flammability:	V2
Operating temperature:	-40°C (permanent)
Color:	RAL 7035
Impact resistance	IK08

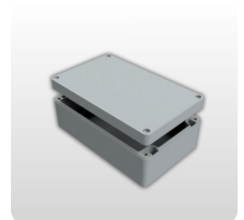

Description

The MBX Basic enclosure is made of polycarbonate and designed for industrial applications. It can replace aluminum enclosures without any problems. With its high IP rating, dust or water will never be a problem for the MBX Basic. It is superior to all aluminum enclosures, especially in applications with an increased risk of corrosion. The enclosure can withstand high-pressure washing, steam jet cleaning, and short-term flooding.

- UV resistant
- Suitable for both indoor and outdoor use
- Available with grey or transparent cover
