

Cable glands | DT Brass

Standard cable gland with double seal | M16 - M32 | Clamping radius Ø3-25mm | IP68

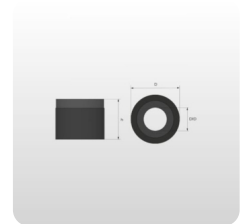

Article:	Cable glands DT Brass
Brand:	Bimed
Cable Gland material:	Brass
Material Seal around cable	Chloroprene CR
Clamping Insert material:	Polyamide PA6
Material O-ring to housing:	NBR
Protection class:	IP 68 - 5 Bar, 30 minutes, IP66
Rating:	TYPE 1, 4X
Flammability:	V2 according to UL94
Temperature:	-20°C to +100°C

Description

Cable glands DT Brass is the perfect choice for industrial standard applications in demanding environments. These cable glands are manufactured with two encapsulated seals that enable reliable sealing for a wider variety of cable diameters. With proven sealing technology and international approvals, you can be sure that these cable glands meet the highest standards. Whether it is heavy industry or other demanding applications, these metal cable glands are a reliable choice for your needs. For industrial standard applications in harsh environments For machines and enclosures Easy assembly High quality strain relief and sealing, reliable performance for industrial standard applications Current international approvals

- For standard industrial applications in harsh environments
- For machines and boxes
- Fast and easy mounting
- High quality strain relief and sealing, reliable performance for standard industrial applications
