

Cable ties Traceable

Traceable for metal detector

Article:	Cable ties Traceable
Brand:	SapiSelco
Color:	Blue
Material:	Polyamide 66

Description

Nylon cable ties that can be traced with a metal detector, X-ray (X-Ray) and visually (blue color). Ideal for applications in the food, pharmaceutical and chemical industries. For safety reasons during manufacturing processes, the possible spread of even small "cut off" sections of the strip between the products must be traceable.
