

## Accessories Device Cabinets | E COR Nordic

Accessories for appliance cabinets in the ETA E COR Nordic series for assembly, installation, and completion

Article:	Accessories, Equipment Cabinet, E COR Nordic
Brand:	E.t.a
Pass	Cabinet   E COR Nordic

### Description

Accessories Device Cabinets | E COR Nordic are developed to complement and optimize enclosure solutions in automation, industry, and electrical installations. The range includes components that improve the functionality, assembly, and customization of control cabinets in demanding environments.

The products are adapted for the E COR Nordic series and provide a secure and efficient installation with high compatibility and easy integration. The accessories are used for internal mounting, cable management, door functions, grounding, and mechanical completion, among other things.

COR accessories help designers, system integrators, and machine builders create flexible and reliable solutions with a professional finish and long service life.

#### Benefits of accessories for ETA E COR Nordic

- Customized for ETA E COR Nordic device cabinets
- Simplifies installation and assembly
- High compatibility and fit
- Suitable for industrial environments
- Contributes to a safe and structured encapsulation solution
