Description

Cabinet E COR Nordic – Wall Box with mounting plate and FL21 cut-outs

E COR Nordic is a wall-mounted enclosure from ETA's E COR series, designed to protect electrical and electronic equipment in demanding industrial environments. The enclosure is made of 1.2 mm galvanized steel sheet, which provides reliable corrosion protection and excellent mechanical strength.

The surface is treated with electrophoresis primer and powder coating in RAL 7035 (light grey) for additional protection and a professional appearance. The door is fitted with a polyurethane seal (foam-molded) and together with the fully welded construction provides tight protection according to IP66 / NEMA 4 and impact resistance IK10, making the enclosure suitable for both dusty and humid environments.

E COR Nordic is ideal for the Nordic market as the enclosure has cut-outs in the roof for FL21. The enclosure is delivered complete with door, mounting plate, and screw set for ground connection.

Included in delivery
