

Thermostat cooling | TRS1141

For Filter Fans | 0°C - 60°C

Article:	TRS1141
Brand:	Rubsamen & Herr
Contact:	NO
Temperature range:	0° C - 60° C
Switching differences:	4 - 7K
Sensor material:	Bimetal
Coupling capacity:	AC: 250V / 10 (2) A, DC: max. 30W

Description

Thermostat cooling / TRS1141 for filter fans is an electronic temperature regulator for our filter fans. Use the TRS1141 to control the heat and humidity/condensation in your application. Protect your electronics with our thermostat for cooling.

- Temperature controller with bimetallic or capillary sensor
- Electronic temperature controller
- Protection of electronics against heat
- Switching contact for filter fans
- Low noise level
- Energy saving
