

Adapter insert | AT-KS

Keystone socket insert | IP54

Article:	AT-KS
Brand:	icotek
Protection class:	IP54
Material:	Elastomer
Material Base frame:	Polyamide
Flammability:	UL94-V0, self-extinguishing
Temperature:	40°C to 100°C
Characteristics:	Silicone-free, halogen-free
Type:	IMAS-CONNECT™

Description

Adapter grommet / AT-KS IMAS-CONNECT is designed on the basis of a large KT bushing. The polyamide body is molded with elastomer.

The cut-out enables a snap-in assembly of all couplers based on the Keystone system. If required Keystone jack can be disassembled with a screwdriver.

The insertion of AT-KS into an icotek cable entry frame enables the routing of cables with and without connectors in combination with the creation of interfaces for Keystone couplers within one cable entry system. Separate cut-outs for connectors are no longer necessary.

AT-KS provides ingress protection of up to IP54 (depending on the Keystone coupler type and manufacturer).

AT-KS is compatible with:

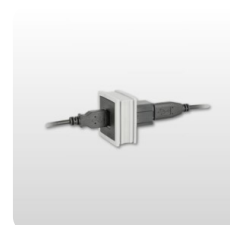

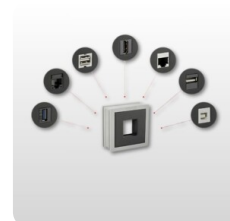

Keystone jack

Cable glands for cables with connectors

Cable entry systems for cables with connectors

Advantages:

- Connectors can be integrated directly into the cable entry frame
- Separate cut-outs for connectors are no longer necessary
- Space-saving design
- Grommet is suitable for all Keystone couplers
- Snap-in assembly
