

Cable gland | KVT-SNAP

Split screw connection with snap-in | for cables with connector | M32 - M63 | IP54

Article:	KVT-SNAP
Brand:	icotek
Protection class:	IP54
Flammability:	UL94-V0, self-extinguishing
Temperature:	30°C to 100°C
Material:	Polycarbonate
Mounting options:	Fastened with lock nut, Snap-in
Characteristics:	Halogen-free, Silicone-free

Description

Cable gland / KVT-SNAP is a round split cable gland for quick and easy installation of cables with connectors or complete wiring harnesses. By using the model KVT-SNAP, cables can be pulled through thick walls (> 5 mm), e.g. through junction boxes without the use of tools. A sealing ring is included in the delivery.

- The snap ring is screwed into metric thread or tapped into the cut-out (it can also be fastened with a locknut).
- Once the snap ring is affixed to the housing the equipped KVT is simply pushed into it.

Advantages:

- Cable entry with or without contact
- Warranties on pre-connected cables are maintained
- Remodeling, repairs and maintenance can be done much easier and faster
- High cable density, wide variety of grommets
- Suitable for metric hole punching
- Increased packing density when using double or quadruple bushings
- Simple assembly/disassembly from the front
