Description

Cable duct Slotted IBOCO / T1-E – Smooth and efficient cable management for professional installations.

Are you looking for a reliable solution for organizing smaller cables in control cabinets or electrical cabinets? Cable duct Slotted IBOCO T1-E is an excellent choice for those who want a robust, structured and efficient cable routing. This narrow slotted cable duct comes complete with a cover and is specially designed to withstand demanding industrial environments.

Advantages of IBOCO T1-E cable duct:

- Strong and durable construction – The extra thick bottom and sidewalls provide long-lasting performance and increased stability in harsh environments.
- Quick installation – Countersunk holes in the bottom of the channel enable easy assembly with smart accessories, saving both time and labor.
- Versatile use – Perfect for control cabinets, machine installations, control panels and other industrial applications where order and safety are crucial.

With IBOCO T1-E cable duct You don't just get a more attractive cable routing – you also get a safer and more efficient electrical installation. Invest in quality and function with a cable channel that is built to last.
