Description

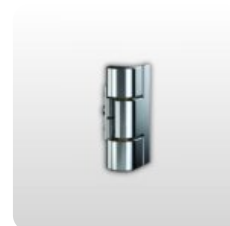

The E NUX X enclosures are a range of stainless steel floor standing enclosures. The enclosures are designed and manufactured according to the new concept typical of E NUX. 30 standard dimensions available with blank or plexiglass doors, supplied with single or double doors in rigid structure. Available in both AISI304L and (AISI316L materials on request). The profile used for the frames and crosspieces is unique, fully welded and free from sharp edges. The base is created in one piece with a box-type structure made of press-bent welded profiles, while the frame corners are made of AISI316L. ENUX X offers the technical features introduced with the new stainless steel range. With silicone sealing, stainless steel doors with shaped corners. Components made of stainless steel, new packaging.

- Level of protection guaranteed by two-component silicone foam seal

Delivery includes:

- Roof and back panel
- Blank door with shaped corners fitted with a stiffening tube frame
- 3.0mm diam. double bar lever operated locking system
