

Cable holder IBOCO | CL

Holder for cables in slotted channel | RAL7021

Article:	CL
Brand:	IBOCO
Material:	ABS/PC
Color:	RAL7021 (dark grey)
Approvals:	CE

Description

Cable holder / CL – Smart cable relief for T1 and T1-E cable ducts.

Cable holder CL is a patented and effective accessory for cable ducts of type T1 and T1-E. With the unique integrated fastener ZP1 you get a stable and easy mounting that both facilitates installation and improves cable management.

Advantages of IBOCO CL cable holder:

- Patented system with ZP1 fasteners – Simple and secure attachment directly into the cable duct.
- Holds cables in place during installation – Perfect for routing and organizing cables in control cabinets and electrical cabinets.
- Protects cable duct slots – Prevents bulging against the sidewalls and provides better durability over time.
- Available in several sizes – Matches our entire range of IBOCO cable ducts, including T1 and T1-E.
- Time-saving solution – Quick assembly that makes a difference in both small and large installation projects.

Our cable holders are delivered in a dark gray shade (RAL 7021) and are designed to meet both functional and aesthetic requirements in professional electrical installations.
