

Partition wall IBOCO | SEP-E

Slotted channel separator | RAL7030

Article:	SEP-E
Brand:	IBOCO
Material:	Rigid PVC, Self-extinguishing
Temperature:	5°C to 65°C
Length:	2000mm
Color:	RAL7030
Approvals:	CE

Description

Partition wall / SEP-E – Easily separate circuits in T1 and T1-E cable ducts.

IBOCO SEP-E is a practical and effective partition for cable ducts of type T1 and T1-E. With this accessory you can physically separate cables and circuits within the same duct – an important function when it comes to distinguishing different voltage levels or system functions.

Advantages of IBOCO SEP-E partition wall:

- Safe separation of cables – Perfect for keeping wires with different voltages or functions separate in the same cable duct.
- Quick and easy installation – Easily installed without additional tools or conversion.
- Flexible and efficient solution – Adapts to the channel's design and creates order and increased safety.
- Compatible with T1 and T1-E – Designed for a perfect fit in IBOCO cable channels.
- Reliable and durable – A favorite among installers who require structure and operational reliability.

With the SEP-E partition wall, you get a cost-effective solution to meet requirements for clear cable separation according to electrical standards and safety regulations.
